

THE ZIP HYDROTAP_RESIDENTIAL RANGE

IT'S WATER. REFRESHED.

IT'S WATER, REFRESHED.

Known throughout Britain for being home to the world's most advanced drinking water appliances, Zip's expertise in filtered boiling, chilled and sparkling water taps is second to none.

Since 1962, we've been innovating, advancing and perfecting our technology, and today are proud to bring you the purest, cleanest-tasting water possible. But our drive to innovate doesn't just stop with great tasting water. Easy to use and maintain, the energy efficient Zip HydroTap is also the world's safest instant boiling water tap, with boiling isolation and safety lock features unique to us.

With the launch of our Design Range and extended choice of finish and colour options, we now not only bring you the latest in technology, but also in design.

Advanced functionality, made beautifully; Zip HydroTaps are the first and last word in versatility, style and cutting edge technology, ready to transform the way you drink and cook forever.

ZIP HYDROTAP_DESIGN RANGE_**ARC**_GUNMETAL

THE WORLD'S MOST ADVANCED DRINKING WATER APPLIANCE.

THE WIDEST CHOICE OF WATER OPTIONS.

Filtered, boiling, chilled or sparkling – any way you like it, and in any combination. The Zip HydroTap has the most water delivery combinations on the market. Whatever the desire, the reality is possible.

THE WIDEST RANGE OF STYLES AND FINISHES.

The Zip HydroTap isn't just the world's most advanced drinking water appliance, it also has the widest choice of designs, colours and finishes – as well as the option of fitting it over-sink or on-front – to suit any interior. This allows you to tailor your Zip HydroTap to your own personal style.

THE WORLD'S SAFEST INSTANT BOILING WATER TAP.

With boiling isolation and safety lock features the Zip HydroTap has been designed with the whole family in mind. Our unique safety features mean younger hands can't operate boiling mode, giving peace of mind for parents.

THE PUREST TASTING WATER. BAR NONE.

Standard water filter jug filter pore

A Zip water filter pore is x25 times smaller*

The Zip HydroTap delivers the purest water from any boiling and chilled instant tap in the world. With x25 better filtration than a water filter jug, the water is crisp, clear and refreshing. It's also free from dirt and contaminants that other systems may not remove.

*Comparative size of Zip HydroTap submicron filter versus a 5 micron filter in a water filter jug

“IT’S THE FINAL PIECE OF MY HEALTHY LIFESTYLE PUZZLE. MY FAMILY HAVE PURE FILTERED, BOILING, CHILLED AND SPARKLING WATER ON TAP – STAYING HYDRATED AND HEALTHY IS EASY WITH A ZIP HYDROTAP.”

STANDARD FINISHES

BRIGHT CHROME BRUSHED CHROME GLOSS BLACK MATT BLACK

While our standard finish options are anything but standard, we know that the demand for a greater range of kitchen tap finishes has never been higher.

Alongside our standard bright chrome, brushed chrome, matt black and gloss black finishes, our Platinum Design Range features eight additional trend-led colours and finishes. Whether your kitchen's craving a Scandi-inspired rose gold, an industrial gunmetal grey or a classic platinum, you can now let your tap choice reflect your personal design preferences and even match the existing metal accents in your kitchen.

Available on the entire Design Range of HydroTaps, including the Celsius, choose from rose gold, brushed rose gold, gold, brushed gold, platinum, gunmetal, nickel or brushed nickel.

SERVICE & AFTERCARE

We don't just pride ourselves on outstanding products, we are also committed to providing outstanding service levels. Our dedicated team is on-hand to answer any queries, and, should a call-out be required, we'll work with you to find a convenient time for a member of our support team to visit. Our engineers, employed by Zip are fully trained in our products and aim to fix any issues on the spot.

UNDER-SINK UNIT

Our under-sink units for the Zip G4 range are more compact than ever, and feature connection points at the rear to make neat installation more simple. A front access door makes changing the filtration cartridge as simple and quick as replacing a lightbulb. All HydroTaps require space under the worktop for the Command-Centre™, please check the website for specifications.

YOUR WARRANTY

2-year full parts and labour warranty for Miniboil, ChillTap and Filter Tap. Zip HydroTap G4 models featured in this brochure are covered by a comprehensive full parts and labour warranty for 36 months from date of purchase. A further 24 months boiling tank warranty is included, provided any service required is carried out by a Zip-trained service provider and that water filter cartridge replacements are made at recommended intervals.

MANUFACTURING STANDARDS

Zip remains the world leader in instant boiling water, setting the pace in time-saving, water-conserving and user-safety technology.

- WRAS approved
- RoHS compliant

ZIP FILTER AFTERCARE

If you live in an area where hard water is an issue, we strongly recommend the fitting of the Zip Professional range scale filtration system. By using one of these systems, limescale build up will be prevented and your Zip product will have an increased lifespan.

The filter offers the following benefits;

- Triple-action filtration
- Ion exchange resin to reduce water hardness
- Carbon block to improve taste and odour
- High efficiency filtration to remove particulates

ZIP HYDROCARE

Let us remove any concerns about how to keep your Zip HydroTap in tip-top condition by offering you our comprehensive Zip HydroCare package. This aftercare plan includes everything you need to ensure hassle-free enjoyment of your HydroTap – and all for just a little more than you would pay to change the filter yourself.

What's included:

- Full breakdown cover, including parts and labour
- An annual inspection by a fully qualified Zip technician to inspect and adjust, if required, your Zip HydroTap
- Sanitisation of cold drinking water units, in accordance with EU recommendations
- Annual filter replacement
- Any necessary rectification of scale damage (if using Zip Scale Filtration system)
